

Rethinking convention, the Legacy 500 is the latest and fastest jet in its class. Passengers enjoy a smooth flight in a stand-up cabin with flat floor, fully equipped galley, state-of-the-art connectivity and in flight entertainment.

The aircraft seats up to 10 passengers in elegant-yet-practical seating that can convert into fully flat berths for overnight sleeping. The main baggage compartment is large enough for the heavy traveller and complements a generous in-flight-accessible baggage compartment. Built with the finest attention to comfort details and flown using the latest fly-by-wire flight control systems to deliver the smoothest flight, relaxing on board is effortless.
